CITY OF APPLETON.

**The Election.**

In the City.—Election day passed off very quietly in the city, and the vote was much lighter than for years. The following are the returns:

The City Election has passed, and almost ceased to exercise our gossiping qualities. Some were disappointed, agreeably so, others the reverse. A comparatively light vote was polled. For instance, the Second Ward had polled 180 votes and upwards, but 120 votes were deposited this spring. Party politics seemed to have less to do with the election than on former occasions. Men voted with reference to individuals, or their own particular preferences. For example, Ryan, dem., for Tichenor, had 20 majority in the city over worthy competitor on the rep. side of the house. On the other hand, for Mayor, eritis, and we will guarantee that all who Hammond, rep., is elected by 54 maj. In join his Company, will receive good usage. This instance, however, a most contemptible operation defeated Mr. Jewett. It is, guaranteed as long as Capt. Conkey is at the head of the Co.

As an indication of the results of the gracious revival that has been in progress in the churches in this place, during the last six or seven weeks, we will state that in the Methodist alone there have been received on probation and into full connection some eighty six persons. We have not learned the number received in the other Societies, but it must be considerable. Still the good work progresses.

Capt. Conkey has been in town for a week past. He looks every inch the soldier, and if we can credit the universal statement of his men, is one of the best officers in the regt. He looks after the welfare of his men, and is beloved by them. He is anxious to receive a few more recruits. On the other hand, for Mayor, eritis, and we will guarantee that all who Hammond, rep., is elected by 54 maj. In join his Company, will receive good usage. This instance, however, a most contemptible operation defeated Mr. Jewett. It is, guaranteed as long as Capt. Conkey is at the head of the Co.

The Spring Session of Lawrence University commenced on Wednesday last, with a fair attendance of Students. We look for a large number of new faces among the young gents and ladies who attend this University. This is acknowledged by all that as far as administrative ability and qualification for the office of Mayor is concerned, Mr. Jewett is not second to Mr. Hammond, or any other man in Appleton; but because he acted with promptness and energy in his official capacity as District Atty., in prosecuting a man for selling liquor to Indians and "setting him" with a fine, together with the fact that Mr. Jewett with others of our citizens secured a pardon for the Indians confined in jail for a row with this same individual fined, a certain class in the democratic party must needs vent their spleen by cutting Jewett and doing all they could against his election.

If it has come to such a pass that an officer of the County cannot safely perform his duty without subjecting himself to personal attacks at the ballot box, then there is an once need for the people to say that officers shall be protected and backed up by public opinion. Mr. Jewett will outlive such contemptible persecution, if there is any virtue in humanity, and his persecutors will find that when a man does his duty, regardless of consequences, the better judgment of community, will maintain him in it. We had rather be the defeated candidate for Mayor, a thousand times, than to have secured one election by trickling to any man's personal prejudices.

Jas. Gilmore, Dem., is elected Assessor by 60 maj. He is qualified for the office, a better man for the place could not be found in the city, so say the voters.

The Democrats made a clean sweep on Aldermen: i. e. in the First Ward there was no opposition to Tichenor, as also in the Second Ward to Mr. Tompkins. A dem. gain of an Ald'm in the 4th Ward, Geo. Wood, dem., elected in the 3rd Ward.

**Apologistic.**—We are compelled, for want of time, to give our readers a half sheet, and rather meager at that. Our friends from the back towns so crowded us with tickets to print, and then election day succeeding, we found it impossible, with our office force, to issue a whole sheet. But our readers will bear with us, as it is seldom the case. We will endeavor to make it up in the future, in increased interest in our columns.

The first good-sized rain of the season was on Tuesday evening. People can make up their minds to enjoy the felicity (?) of mud, slush, slops, and general wet-weather until the documentary "May flowers" make their appearance.

Tuesday was the first day of April, and our "boys," in order to duly corroborate the day, got out an Extra with flaming headings, *a la* some Milwaukee dailies, announcing the capture of Island No. 10, and sundry individuals appreciated the occasion, in a very enthusiastic manner, after investing liberally in this counterfeit of Barnum. Good thing!

The above figures are nearly all correct. This logging was done on Townships 23, 24, and 25, range 16.

The following Grade of standing is tak-

from the Register. A daily record is

kept of those absent or tardy; also perfect

and imperfect lessons, and elements for

misconduct. This record is footed ev-

ery day of Boston.

The most impudent case of robbery we

ever read; lately occurred at St. Louis,

where a fellow dressed as a sergeant ap-

plied at several places in that city, where

there were military, for a guard to go with

him and arrest an individual subject to mili-

tary arrest. He was unsuccessful in find-

ing a guard, however, for a long time, but

finally got six men from a Wisconsin regi-

ment, who went with him to a broker shop

and bare off the proprietor and clerks, leav-

ing "Sergeant" Reed behind to guard the

store. As soon as they were gone he

helped himself to \$4,000 or \$5,000 and

vamosed, and has not been heard of since.

The broker was of course released when

the trick was discovered, and the Wisconsin

sun boys feel greatly chagrined.

About a week since Col. Carter, at the

head of his regiment, which is now en-

camped at Cumberland Ford, made a spirit-

ed dash into Tennessee. Taking four

days' rations, the regiment left camp on

Monday, March 10, and went through the

mountains some forty miles to Big Creek

Gap, four miles above Jacksboro's, Tenn.,

where they laid a fight with the rebel cav-

alry. Two of the rebels were killed, four

badly wounded and fifteen taken prisoners,

among whom was Lieut. Col. White.

Col. Carter also obtained all of the tents

for three companies, their camp equipage,

and provisions, and some arms. Twenty-

seven of the rebels' horses were killed and

nine captured, with seven miles and

four wagons. Lieut. Col. Keigwin, of the

Many Thanks

To the large number of Republicans, who so generously complimented me by their suffrages, for the responsible office of City Treasurer, on Tuesday last. It is my nest wish that, in the arduous duties before me, I may merit the hearty approbation of friend and foe alike. Again, friends, a thousand thanks.

HENRY D. RYAN.

The Common Council holds its regular session this evening. This will be the last regular meeting before the new Mayor and Councilmen take their seats.

We have had a variety of weather on the Board during the past year. It has been cold, alternating with the fierce Piercing storms. We have enjoyed much sport and good times in our sessions, but Sardines and Oysters were not ours to indulge in, as it was the rule in the good old days of the Village Board. Ask Cummings or Warner; they know all about it.

We have had our bitter fights and enjoyed hearty laughs together, and now as we are about to officially separate, and some will be replaced by new candidates for city councilmen, we feel that we can part with those who leave us with kindly feelings.

Our disagreements have been honest, therefore conscientious. In the new Board we cannot predict the future. May it be pleasant to all, and may the best interests of the city ever actuate and influence every member in his official actions.

A bill to abolish slavery in the Dist' of Columbia has passed the Senate by 29 ayes to 14 nays.

Contrabands from Frederickburgh report that town now occupied by 30 regiments of the enemy: the main part of which have arrived within the last three days.

Baltimore, April 3d.—The number of rebels at Fort Pulaski, as reported by the deserts, is 500. Two German companies there had revolted, and were in iron.

The city or Savannah is very strongly fortified, and all the approaches to it. The force there is variously estimated, by refugees, at 20,000 to 50,000.

A great despondency existed among the troops and people of Charleston. The fall of Newbern created the greatest consternation. The fire entered the N. C. troops, charging them with cowardice. The shop keepers and bankers in Charles ton had also refused to receive N. C. money, and there being two N. C. reg'ts there at the time, a revolt was the consequence, and the shops were broken open and the troops helped themselves.

These regiments refused to serve any longer, and were allowed to return home.

The rebel steamers Jamestown and Yorktown are getting strengthened, and were thoroughly clad with iron, to accompany the Merrimac.

There is also a rumor that two other steamers are being clad with iron at Richmond.

As to the loss of life on the Merrimac in her engagement with the Monitor.

One of the recently arrived contrabands states that he had helped to shroud 32 of the crew of the Merrimac, and both commander Buchanan and Lieutenant Miner are dead.

Cairo, April 2d.—The most terrible tor-

ment that has visited this city for sever-

al years, came upon us at 3 o'clock this

morning. The storm came up from the south—wind, rain, hail, thunder and lightning.

Nearly all the transports, barges, steam tugs and floating property was torn

from the moorings on the Ohio river and blown across the river. The slate roof of the St. Charles Hotel was scattered over the town. Several roofs of barracks were leveled with the ground, but happily they
